SUMMARY

Passionate Java backend developer with 2+ years of experience in developing Java RESTful APIs and backend systems. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects. Able to work independently of remote locations or in office environments as needed by the company.

PROFESSIONAL EXPERIENCE

Java Backend Developer

11/2021 - Present

Deloitte USI

Hyderabad

- Implemented and maintained RESTful APIs for a cloud-based data management system using Java and Spring Boot, leading to a 20% improvement in API response times.
- Collaborated with the frontend team to integrate new features and optimize existing functionalities.
- Conducted code reviews to ensure code quality, adherence to coding standards, and knowledge sharing within the team.
- Worked closely with QA teams to identify and address bugs, resulting in a 30% reduction in post-release issues.
- Participated in daily stand-ups, sprint planning, and retrospective meetings as part of an Agile development team.
- Collaborated with senior developers to optimize database queries, resulting in a 25% reduction in system response times.
- Leveraged the application by integrated with multiple cloud service.

PROJECTS

Monetization Ads-Platform

03/2022 - 12/2022

Hyderabad

Developed a RESTful API application and scheduler integrated with Azure Cosmos DB and the MediaMath platform for a e-commerce website to target the users.

- Outcome this project is increased the web-site users to 20% by targeting the users on the offline sites.

DMAPI(Deloitte modernization Application platform)

08/2023 - Present

Hyderabad

Developed a RESTful API application and integrated with Jenkins, ServiceNow, UiPath and cloud service providers. Application is robust and multi-cloud integrated service.

- DMAPI is a ready-to-use web implementation template that enables you to jumpstart your implementation and easily build and maintain a feature-rich and flexible commerce solution.

EDUCATION

B. Tech, Civil Engineering

03/2016 - 09/2020

Visvodaya Engineering College

Kavali

ACHIEVEMENTS

Spot Award

Developed a monetization-DSP independently which helped customer to map the user and media math UUID and target the users on eCommerce.

Applause Award

Developed a monetization-Display Ads independently which helped to fetch the right ad from Flipkart ad server manager to show on eCommerce customers.
